Get evaluated!

The OSSTF/FEESO Certification Plan is designed to provide a systematic and consistent method for evaluating and improving teaching qualifications.

The Certification

Division shall give an official ruling on the acceptability of any course to be used for upgrading. The acceptability of any specific course shall be determined provided full particulars have been submitted

using the current application form well in advance of the commencement date of the course. The Certification Division will not guarantee that a course taken by a Member may be used by the Member for upgrading unless that Member has received written approval prior to the taking of that course.

Certification Regulation 10

How it works

Licensing of Ontario Teachers

Licensing of Ontario teachers is the responsibility of the Ontario College of Teachers. The Ontario College of Teachers issues Certificates of Qualification.

Certification Department

The OSSTF/FEESO Certification Department evaluates teacher academic and professional records according to the regulations of the OSSTF/FEESO Certification Plan (found in the *OSSTF/FEESO Handbook*) and then issues Certification Rating Statements. These statements are used in collective agreements for salary placement. Members of the department include trained Evaluators and support staff.

Certification Appeal Board

The OSSTF/FEESO Certification Appeal Board is composed of three teacher members who are appointed by the Provincial Executive. The Board is responsible for hearing Member appeals.

Certification Council

The OSSTF/FEESO Certification Council is composed of six Members from across Ontario who are practicing teacher members of OSSTF/FEESO. Council formulates and interprets the OSSTF/FEESO Certification Regulations and is responsible for recommending any changes to the Regulations to the Annual Meeting of the Provincial Assembly.
